Start a War

Staticâ€•X

Sliding, spinning
Turn around, feel my heart pound
Motor screaming
Sliding down, got to turn it aroundDanger nowhere
By myself, I burn the thrill
Claw my way out right now
Got to try to get outI'll start a war with it
I'll start a war with it
I'll start a war with this fucking emotionI'll start a war with it
I'll start a war with it
I'll start a war with this fucking emotionI'll start a war against you
You're one of them
You call yourself a victim
But you're at it againI've felt stranger
Paradise, you made me kill
Now I'm far out, right now
Got to try to get outI'll start a war with it
I'll start a war with it
I'll start a war with this fucking emotionI'll start a war with it
I'll start a war with it
I'll start a war with this fucking emotionI'll take it all
Give me some more
I'll take it allI'll take it all
Give me some more
I'll take it allI'll take it all
Give me some more
I'll take it allI'll take it all
Give me some more
I'll take it allDanger nowhere
By myself, I burn the thrill
Claw my way out right now
Got to try to get outI'll start a war with it
I'll start a war with it
I'll start a war with this fucking emotionI'll start a war with it
I'll start a war with it
I'll start a war with this fucking emotionI want it all
I'll start a war
I'll take it allI want it all
I'll start a war

I'll take it allI'll start a war
I'll start a war
I'll start a war with this fucking emotionI'll start a war with it
I'll start a war with it
I'll start a war with this fucking emotion
