

Get Lost

Summertime Dropouts

You still tell me you love me
But I'm tired of the games you play
You say you wanna be with me
But that changes day to day
You left town, didn't say a word
Found somebody else I've heard
Now you want me to run right back
Well I'm not coming back to you You better get lost cause I'm better off without you
Better back off cause I'm on my way
Just so you know I burned all your t-shirts
You'll be alone and I'll be ay-okay You swear it's all just a mix up
That it's all inside my head
You promise things will be different
But I think I've reached the end
I spent days sitting by the phone
Wondering when you're coming home
Now you think you can waltz right back
And start off where you left before You better get lost cause I'm better off without you
Better back off cause I'm on my way
Just so you know I burned all your t-shirts
You'll be alone and I'll be ay-okay
