

# Crash Course in Brain Surgery

## Budgie

Look inside and you will see  
The words are cutting deep inside my brain  
On they're burning quickly turning  
Knife of words is driving me insane, insane  
Yeah, yeah Raven black is on my track  
Please show me how to neutralise the knife  
Show to me in surgery  
The art of finding words to conquer life, or can try  
Yeah, yeah Ooh baby, I can rock and roll  
Ooh baby, get out of my soul Now the wicked lance I fear  
Driven from my heavy mounted brain  
Crash course in brain surgery  
Stops the bloody knife of love again  
Yeah, yeah, yeah
