

A Common Disaster

Cowboy Junkies

A candle burning for everything I've ever wanted
A tattoo burned for everything I've ever wanted and lost
I had a long list of names that I kept in my back pocket
But I've cut it down to one and your name's at the top
 Won't you share a common disaster?
 Share with me a common disaster
 A common disaster
I found myself a friend but he's crooked as a stick in water
So now I'm writing fairy tales to catch the spirit of revenge
 He's got a plan to steal my little sister
But I'm not too concerned 'cause I will get him in the end
 Won't you share a common disaster?

 Share with me a common disaster
 A common disaster
 Going to find me someone to share
 A common disaster
Run away with me from a life so cramped and dull
Not worry too much about the happily-ever-after
 And just keep the Caddy moving
 Till we're well beyond that hill
 Won't you share a common disaster?
 Share with me a common disaster
 A common disaster
