

Dance With Me

Stella Soleil

Will you dance with me, will you hold me close?
Will you dance with me, can we just let go?
Oh dance with me With your hand against the small of my back
Losing all sins of time and the past Can you feel my heart pressed against yours?
Caught in the moment of my private rapture
Can you feel my desire, my sensuality?
Caught in the moment of my private rapture Don't you wanna do, do something? Will you move with me like it
move inside?
Will you come with me, will you make me smile?
Oh dance with me With your hand against the small of my back
Losing all sins of the time and the past Can you feel my heart pressed against yours?
Caught in the moment of my private rapture
Can you feel my desire, my sensuality?
Caught in the moment of my private rapture Can you feel my heart pressed against yours?
Caught in the moment of my private rapture
Can you feel my desire, my sensuality?
Caught in the moment of my private rapture Come on darlin', come on to the floor
Can't you see I'm waitin'?
Come on lover don't you answer more
Can't you hear me sayin'? Can you feel my heart pressed against yours?
Caught in the moment of my private rapture
Can you feel my desire, my sensuality?
Caught in the moment of my private rapture Can you feel my heart pressed against yours?
Caught in the moment of my private rapture
Can you feel my desire, my sensuality?
Caught in the moment of my private rapture
