

# Letter to a Friend

## Warrant

I'm alive and you're alive  
And don't we both deserve to be happy?  
We realize we're not the same  
So no one here should take the blame,  
It's o.k. to walk away and live to love another day,  
This is not a fairytale  
This is life  
And sometimes life fails  
Thought I'd let you know  
Just before you go  
It's alright  
Make your brand new start  
But keep me in your heart and you'll be fine  
That's reality  
As water flows beneath the bridge  
We're learning how to forgive,  
As milk spreads out across the floor  
We both agree it's not worth fighting for  
Nothings perfect except for God  
and a California sunset,  
So we're not perfect it doesn't mean we're bad  
There's a place in the sun for everyone  
You've just got to find it  
I wish you luck with yours  
I have to go and find mine
