

# White Lines

[Alexz Johnson](#)

I tried to tell you Ive got to get away  
I tried to say I need my space  
Ive got to get some distance in between  
My heart and my head, Im on the razors edge  
I've been here before, I know the wayWhite lines  
And headlights in my eyes  
White lines  
Im ready to drive all nightWhite lines  
How many till Im in your arms  
White lines will bring me home  
White lines will bring me homeI held you in my arms last night  
I dreamed we were riding on a star  
I kissed you and the sun began to shineIn dreams I can do anything  
It seems like Im on my own  
It feels like Im losing it allWhite lines  
And headlights in my eyes  
White lines  
Im ready to drive all nightWhite lines  
How many till Im in your arms  
White lines will bring meSeems like Ive been here before  
I know the way  
Seems like Ive been on my own  
So long, so longWhite lines  
And headlights in my eyes  
White lines  
Im ready to drive all nightWhite lines  
How many till Im in your arms  
White lines will bring me home  
Home, home, home
