

# You Can Love Me Now

## Hothouse Flowers

You can lean on me anytime  
You can take my hand, I don't mind  
Never ever worry, yeah  
It mightn't ever happenOn a darkness night, come to me  
When you feel alone, let it be  
We won't let it win, yeah  
It mightn't ever happenYou can love me now  
You can love me now  
You can love me now  
I'm feeling something realYou can love me now  
You can love me now  
You can love me now  
Take, take, take, take  
Take, take, take meWhen I look in your eyes, I can see  
There is nowhere I would rather be  
These are old wounds, baby, yeahIt might just happen  
It might just happen  
It might just happen  
It might just happenYou can love me now  
You can love me now  
You can love me now  
I'm feeling something realYou can love me now  
You can love me now  
You can love me now  
Take, take, take, take  
Take, take, take me
