

# Dream On

## The Oak Ridge Boys

Lay your head down on my shoulder  
I won't let the night get colder  
I'll protect you, I'll be keepin'  
Trouble far from where you're sleepin'.

Until you wake in the mornin'  
You've got the world to yourself.

[Chorus]

Dream on

Dream about the world we're gonna live in one fine day

Dream on

Spent the night in heaven I'll be here to light your way.

Someday tomorrow we'll smile

But little girl in the meanwhile

Dream on.

You're a princess chains around you

I'm a hero who just found you

'Til a brand new day must wake you

Let imagination take you

Go where the music is playing

I'll be along in awhile.

[Chorus]
