# You Know

## Revive

I have so many dreams for my life
I'm going this way and that
I'm Spending so much time worrying
About how it's all turning out[Chorus]
But you know where I've been
And you know where I'm going
Cause you see all my plans for what they are
I lay them all downYou keep the sparrow flying in the sky
Why do I question You?
The flowers of the field are beautiful
I'm a child in the arms of my Father[Chorus]
And you know where I've been
And you know where I'm going
Cause you see all my plans for what they areSo many times you've held me near
And brought me through the storm
And You never made me do it on my own
Thought broken hearts and broken dreams
My hope in You is strong
There is nothing in my life you haven't known[Chorus]
And you know where I've been
(And you know where I've been)
And you know where I'm going
(And you know where I'm going)
Cause you see my plans for what they are
Yeahhh.And you know where I've been
And you know where I'm going
Cause you see all my plans for what they are
