

Calls (feat. Jill Scott)

Robert Glasper Experiment

You always come
You always answer calls
When I call, you come
You always answer my calls
When I call (you always come)
You always answer my calls
When I call, you come
You always answer my calls
When I call (you always come)I don't even have to question if it's real or not
You're right there, all times
Even when my car broke down in the parking lot
You were there
You didn't stutter or hesitate
You come to my rescue once again.
Like thatYou always answer calls
When I call, you come
You always answer my calls
When I call (you always come)
You always answer my calls,
When I call, you come
You always answer my calls
When I call (you always come)Look up, then there's
A beautiful man with a kind heart,
And a multiple degree in leaves
We took a ride to the nearest open air,
Didn't have a spear
And now we're here.
Talking 'bout the last bottle of Chard'
Of a longest good night (good night)You always answer calls
When I call, you come
You always answer my calls
When I call (you always come)
You always answer my calls,
When I call, you come
You always answer my calls
When I call (you come)Even when my friends at the party
And everybody's around me
I don't feel, still lonely
You come to mine I see your eyes

I see the smile
And I'm alright for a little while longer(Hello?) You always answer calls
When I call, you come.
You always answer my calls,
When I call (you always come)
You always answer my calls
When I call, you come
You always answer my calls
When I call(You always come)You always answer calls
When I call, you come
You always answer my calls
When I call (you always come)
You always answer my calls
When I come, you comeYou always answer my calls
When I call (you always come)You-you-you don't take no for an answer
When it comes to lovin' me
You-you-you-you, connect
