That Just Happened

Mountain Heart

Woke this morning
Head still spinning
Crowd still roaring
Yeah we shook em all night
Tonight it's your town
At the hoedown
No turning back now
Gonna crank it up loud when they turn on the lights

So get out of the way
If we're a little too rowdy
Stand up and shout
If you're here to party
Hands in the air
Let down your hair
If you had any doubt, you're gonna leave here without

At the end of this song you better pick up your jaw
You'll be shaking you head saying yeah...
Lord that just happened

Playing our tunes
Hillbilly home brew
We make our own rules
Yeah, anything goes
Strap in real tight
It's a wild ride
We're going big time
We're gonna show you how country boys rock and roll

So get out of the way
If we're a little too rowdy
Stand up and shout
If you're here to party
Hands in the air
Let down your hair
If you had any doubt, you're gonna leave here without

At the end of this song you better pick up your jaw
You'll be shaking you head saying yeah...

Lord that just happened

Yeah tomorrow the suns gonna rise
But tonight's gonna blow your mind

So get out of the way
If we're a little too rowdy
Stand up and shout
If you're here to party
Hands in the air
Let down your hair
If you had any doubt, you're gonna leave here without

So get out of the way
If we're a little too rowdy
Stand up and shout
If you're here to party
Hands in the air
Let down your hair
If you had any doubt, you're gonna leave here without

At the end of this song you better pick up your jaw
You'll be shaking you head saying yeah...
Lord that just happened
