

# We Are Incurable Romantics

## Ozark Henry

There's nothing we can do about it  
We are incurable romantics  
We're here only for the ride  
We are incurable romantics  
To cross the ocean that's between us  
We are incurable romantics  
To look the monster in the eye  
We are incurable romantics  
If for once I could catch a butterfly  
You are an incurable romantic  
In the heap I'll tread you like a ladyTo save yourself  
To save your world  
The dragon were after, is the sweetest thing on earth  
It's showing us a way, to heavenSince you there's after and there's before  
You are an incurable romantic  
Same world but different hallways and doors  
You are an incurable romantic  
In my head nothing's making sense  
You are an incurable romantic  
I see flares no one fired, babyTo save yourself  
To save your world  
The dragon we chase, is the sweetest thing on earth  
It's showing us a way, to heavenWe'll crash and burn to see the crown  
"It might be worth it", spoke the clown  
So who's the clown?I'll swim the ocean that's between us  
You are an incurable romantic  
I'll look the monster in the eye  
You are an incurable romantic  
Far and near, velvet and veneer  
You are an incurable romantic  
I have thoughts, thoughts I truly fear
