

Give It To Me Straight

Billy Currington

Well if I had a dollar for every time you let me down, stood me up, gave me the run around I'd still spend them
all on you. We used to get so dressed up just to get so messed up.

Chilling in the back of the club all night like we're all alone

But that girls gone

Chorus:

So Give it me straight babe, I can take it.

If theres another guy just tell me why

you've been runnin' late babe every single day every single night

Give it to me straight baby

who ya been with is there something to it? are you just friends with him?

I aint mad at ya

I'm just asking

just asking

well tell me what you thinking just tell me anything at all

say a word or say it all

i gotta hear it straight from you

We used to get so caught up

getting spent and making love

the kind where we both end up on the bedroom floor

but it aint no more.

Chorus

What you been doing?

& Who ya been with?

Is there something to it?

Are you just friends with him?

I aint mad at ya

I'm just asking

oohh

Chrous x3
