

Say Anything

Hannah Cohen

blue moon, won't you fall asleep with me tonight
and I'll say anything for you
to get you to sing
Oh I come see you tomorrow if you say
that you want me to
tell me what you want me to do with the days so long
they painted a story for everyone
with dreams that can never come
or just curl up with the sky, I'll leave you alone
just you curl up with the sky, i'll leave you alone blue moon
and ill say anything for you
to get you to sing
oh I'll come see you tomorrow if you say
if you say that you want me to
tell me what you want me to do
blue moon
blue moon
