

# Never Stops

## Deerhunter

I had dreams that frightened me awake  
I happened to escape but my escape  
Would never come, would never come  
Would never come, would never come I had plans to go away for days  
To try and risk a pace that haunts my days  
That haunts my days, haunts my days  
Haunt my days, haunt my days I love winter, in my heart  
It never stops, it never stops Oh, winter, oh, winter  
Oh, winter, oh, winter It never stops, it never stops  
It never stops, it never stops  
It never
