

# Ice House

## Sleeper

you know that id have done it anyways  
with or without  
youve heard that ive turned both my shoulders  
many times beforeand now after all those fading yesterdays  
i may do it again  
so if it seems a little colder  
thats because it ismake it  
then unmake it  
just to make it again somewhere else  
theyre so fond of you  
theyll drink the water that you tread,  
dont let it go to your headyoure directionless  
youd only know your right from left  
if it would turn a headand ive dined for lessi guess that when your dogs are fed,  
they end up in your bednow go make sure the dogs are fed,  
and watch it go to your head
