

# Busted Seams

## Dave Hammer's Power Supply

Busted seems and a worn down cigarette  
Warm aluminum can in your, in your hand  
And she's got no plan

You need your pills to help you fall asleep  
Whoo! That's a cold toilet seat!  
My bowls are made of concrete, ya  
What did I eat?! Ohhhh!

You and me should hop this train and leave  
You and me should hop this train and leave  
I could just play guitar, Lord, you could sing  
Oh it's all I really need

Thick as thieves, and waltzin' on out of town  
Where do you stand when you fly your sign  
and you drink your bum wine?

You and me should hop this train and leave  
You and me should hop this train and leave  
I could just play guitar, Lord, and you could sing  
Oh! cus you know that's all I really need

You and me should hop this train and leave  
Oh! You and me should hop this train and leave  
I could just play guitar, Lord, and you could sing  
Oh...you know that's all that I need  
That's all I really need  
That's all I need
