Aeons of Raging Darkness

Rhapsody of Fire

I won't forget that day
I won't forget her name
What has hell done to her
Her pain's flowing in my blackened soul's veinsLibera animas
Omnium defunctorum
De poenis inferni
Ne cadant
Ne cadant in obscurumLibera animas
De poenis infernıCold frozen night
(Bleeding sins and lies)
Nocturnal rhyme
(Of unholy pride)Quake! (Crack!) Dare! (Clash!)
Storm the gates of hell!May you be the one
The everlasting flame of hope
Glorify the angels
And fight their holy war
Let me face the beast
And every single devil's son
I will free my mind
And I will save her soulMany don't realize
What it's capable of
What "evil" really is
Far beyond its meaning as a mere wordRequiem aeternam
Dona eis, Domine
Requiem aeternam
Lux perpetua
Lux luceat eisRequiem aeternam
Dona eis, DomineHer lovely smile
(Brutalized and raped!)
Her crystal eyes
(She won't see anymore!)Quake! (Crack!) Dare! (Clash!)
Storm the gates of hell!May you be the one
The everlasting flame of hope
Glorify the angels
And fight their holy war
Let me face the beast
And every single devil's son
I will free my mind
And I will save her soulMay you be the one

The everlasting flame of hope
Glorify the angels
And fight their holy war
Let me face the beast
And every single devil's son
I will free my mind
And I will save her soulWhy you... why?
I will free you!
