

My Black Widow

People In Planes

Black widow in a white room will you survive?
Black widow in a white room with no disguise
Black widow in a white room you stand out a mile
Black widow in a white room Black widow on a mission
She can't stand what she's missing
Black widow on a mission
She don't know who to believe in Black widow on a mission
She can't stand what she's missing
Black widow on a mission
She don't know who she's killing Who'd you believe in Black widow in a white room She's such a liar
I'm gonna spy on her
You make me disappear with a flick of your little finger, why?
You make me!
