Wild Side

Son Volt

You're on the wild side,
You're out wind and free
A lot's wrong in this darkness
You're the sight that's always seen
I don't worry for what comes around
I'll be tested just the same
You're on the wild side
That will always remain[Chorus]
You're on the wild side
That's where you'll always be
You're living proof that there's grace in this world
Wild side living freeWhat can never be taken away
You push that stone uphill
Nothing can change your way of living
Not tomorrow, not today
Our keys don't really matter
I'll be tested in time
I'll look for you on the wild side
The smoke ending lies[Chorus: x2]
