What Is Rational?

Hot Hot Heat

Nobody warns you
Nobody even cares
Nobody warns you
Take it from me, take it from me", he saysMaking sure he wasn't looking back with nothing to say
Making sure he wasn't looking for another way
Making sure he wasn't looking back with nothing to say
Making sure he wasn't looking for another wayLay off your interactions, please
Your flattery is lost on me
I'm asking, I'm asking, I'm asking, I'm asking nicelyWhat is rational?
What is rational?Looking back, he knew he gave himself a head full of holes
Looking back, he never wanted to be one of them
Looking back, he knew he gave himself a head full of holes
Take it from me, take it from me, he saysNobody wants you
Nobody even cares
Nobody wants you
Take it from me, take it from meMaking sure he wasn't looking back with nothing to say
Making sure he wasn't looking for another way
Making sure he wasn't looking back with nothing to say
Making sure he wasn't looking for another wayLay off your interactions, please
Your flattery is lost on me
I'm asking, I'm asking, I'm asking, I'm asking nicelyLay off your interactions, please
Your flattery is lost on me
I'm asking, I'm asking, I'm asking, I'm asking nicelyLooking back he knew he gave himself a head full of holes
Take it from me, take it from me, he says
Looking back he knew he gave himself a head full of holes
