

City of Angels

10,000 Maniacs

Heaven, is this Heaven?

Heaven, is this Heaven?

Heaven, is this Heaven where we are?

See them walking if you dare all, if you call that walking

Stumble, stagger, fall and drag themselves along the streets of Heaven
Where is the blessed table to feed all who
hunger on Earth?

Welcomed and seated each one is joyfully served

See them walking if you dare all, if you call that walking

Stumble, stagger, fall and drag themselves along the streets of Heaven
Where is the halo that should glow 'round
your face

And where are the wings that should grow from your shoulder blades?

Show them to me, sobering sights I've seen in the City of Angels

Have all been one rude awakening that was due to me in Heaven
Sobering sights I've seen in the City of Angels

Have all been one rude awakening that was due to me ohh in Heaven
There would be heavenly music, I was
convinced before

A host of the dearly to meet me with Hosannas sung at the door

But these are sobering sights I've seen in the City of Angels

Have all been one rude awakening that was due to me

In this city of fallen angels
