I Will Kill You

Cannibal Corpse

Bleed for my pain Revenge on treacherous snakes They will paySlicing the flesh Sculptured wounds my catharsis I will stainInto the heart Needle injects gasoline ConvulsionsThe one that they betrayed Has made them this way Plagued by the bastardsI will kill you Killed by my rageScream at my face The grisly scars went unavenged Until nowDeep in the hole You are not gagged and scream aloud But unheardChoke on your vomit You watch your hands cut off Then your legsThe one that you betrayed Will kill you this way Scarred by the bastardsI will kill you Killed by my rage I must kill youInto the throat The scalpel slices Warm blood sprays out The gushing entices Pull out your heart And let you watchShove in your mouth Then stab your crotch I watch your agonyI am released From years of pain Your death avertedMy becoming insane You are dead I have killed you
