

# Jimmy Newman

## John Denver

Get up Jimmy Newman  
The morning is come  
The engines are rumbling  
The coffees all brewed  
Get up Jimmy Newman  
There's work to be done And why do you lie shore still sleeping  
There's waiting line forming  
To use the latrine  
And the sun is just opening the skies  
The breakfast their serving  
And you've only to open your eyes Get up Jimmy Newman my radios on  
The news is all bad  
But it's good for a laugh  
The tent flap is loose  
And the peg must be gone  
You lie there still sleeping Get up Jimmy Newman  
They won't take my word  
I said you sleep hard  
But there shaking their heads  
Get up Jimmy Newman  
And show them you heard
