

# Stay With Me Baby

Lita Ford

I find you alone at night  
I don't know what you're thinking  
Don't know what you're dreaming of  
But it ain't me, now is it?  
But I gotta know  
I can't let my feelings show  
'Cause I've always wanted you to give me a chance  
Now that I've got you here  
You know what you gotta do Stay with me, baby  
I don't wanna make love to nobody else  
Stay with me, baby  
I'm so tired of waiting, come down off yourself  
Stay, baby To feel you alone like this  
I would throw all my kisses  
And throw all my love away  
But that ain't right, now, is it?  
Well someday you'll realize  
I was not blind  
If I could come along with someone like you?  
To save my broken heart  
Here's what you gotta do Stay with me, baby  
I don't wanna make love to nobody else  
Stay with me, baby  
I'm so tired of waiting, come down off yourself  
Stay, baby  
Oh, yeah  
I want you to stay I find you alone at night  
I don't know what you're thinking  
Don't know what you're dreaming of  
But that ain't right, now is it?  
Someday you'll realize  
I was not blind  
If I could come along with someone like you?  
To save my broken heart  
You know what you gotta do Stay with me, baby  
I don't wanna make love to nobody else  
Stay with me, baby  
I'm so tired of waiting, come down off yourself  
And stay, baby With me, with me, with me

Won't you stay with me  
Stay with me  
With me, with me, with me  
Won't you stay with me  
With me, with me, with me  
Won't you stay with me  
With me, with me, with me  
Won't you stay with me  
With me, with me, with me  
Won't you stay with me-a
