On Any Given Day

Deryl Dodd

(steven dale jones/gerald body/billy henderson)
(track 9 - time 3:34)On any given day I'll catch myself
Talking to yur memory that's all I have left
I miss you more than words can say
On any given dayBaby, on any given day goin' crazy alone
I'll happen by your place takin' the long way home
You'll drive me out of my way
On any given dayOnce you hold an angel in your arms
It's the devil letting go
Just a taste of heaven on earth
Leaves a hunger in your soulIf I had three wishes, I'd throw away two
If I could be certain just one would come true
On any given day, I'd take one more night with you
Once you hold an angel in your arms
It's the devil letting go
Just a taste of heaven on earth
Leaves a hunger in your soulIf I had three wishes, well I'd throw away two
If I could be certain just one would come true
On any given day, I'd take one more night with you
Oh, it's true
On any given day, I'd take one more night with you
