Intro I want more, I want more, I want more more more,

Verse 1 Cthekon

Yo
I got an obsession with perfection ending up witta collection of what was aforementioned in different sessions/
But even when I'm done, I'm still stressing much cuz it's never enough, as I manually drive for something better to clutch! (better to clutch)/ Is it affectionate love? Or sexual lust? Cuz I be getting one hell of adrenaline rush whenever I bust like uhhh!!/
You think you bout it dog! I pull the brain outcha skull n down you fall like a rain drop in my cloud of thoughts/
Shower yall with bloody weather, I'm like whatever, as everyone runs for shelter I'm under my umbrella ella/
Why was the raven at the writing desk? Umm.. I haven't the slightest idea.. nevar/ a dweller craving that Stellar bodacious endeavor, changing the weather, making the effort to breaking the record for raising the measure! (Raising the measure)/ hella raging to get up n break out the cellar, engage in the pleasure to murder the time thru all the ways I can tell ya n extraordinary extra/

Chorus Cthekon
No matter what happens I will never give up,
Cuz I push it to the limit but it's never enuff,
Knotty nuff, knotty nufffff! Ã—2

Verse 2 Cthekon

Cuz cuz cuz I ain't satisfied, I want things to happen right now, I can't bide on one's time/ n once I, hit it at some time n it's feeling right, I might wanna hit it more then one time/ that's right
from morning to night, she
horny like rhinos n unicorns fighting under stalactites/ there's a leak, I'm quick 2 fix her up witta fat pipe, it's very deep, then I peak inside witta flashlight/
Want more outta life? Gotta give up something to get it, get that act right, cuz I'm in it to win it for recognition/ intercourse away from it, n
Lift her to the cosmos, I
decided I want more then im afraid of it/
My fantasy is makin love in mid air somewhere, in outer space hugging,
To each other, feelin great comin/
up with more ways to want what i don't got,
She wants me when I'm there, n wants me more when I'm not cuz..

Chorus

Bridge with kids
I want more, I want more,
I want more, more, more..Ã—3

you that I'm here as often as u want it, providing more then, you could bargain cuz it's nonsense/
I want it..all, every pictures off the wall,
Rippin holes thru the sky, to make it rain waterfalls/
N bust flows that go from coast to coast,
You know, it's never enough til u done over dose/
Feel the presence of the Holy Ghost when I show my soul, from young to older folks, I wanna be known to most/ From international to a galactic scope expand n grow rapidly holding power u can't control/ becoming inhabitants, calling another planet home, starting off as microscopic one cell animals/
It's never enough, human evolution is the solution, the difference between past n future is an illusion that's why..

Chorus

Outro Cthekon
You feel me, I just wanted more,
More luck, more praise, i just wanted to make things more better, get more made
More love, more hate, more pleasure, more pain it's never enough..
I want more, more, more!
