

# Some Dreams Come True

## The Bangles

I've seen the shadows fall  
Colors that fade on my wall  
Dressed up nowhere to go  
It's all in my mind I know But it's alright now  
We're on our way Lay me down in the moonlight  
So close to you  
(So close to you)  
Maybe we're just dreamers  
Some dreams come true Lips move but not a sound  
When the words fall to the ground  
Ooh, eyes watch but seldom see  
The possibilities But it's alright now  
We're on our way Lay me down in the moonlight  
So close to you  
(So close to you)  
Maybe we're just dreamers  
Some dreams come true  
When we're together  
There's nothing we can't do  
(Nothing we can't do)  
Maybe we're just dreamers  
Some dreams come true, ooh Movin' in circles that we create  
(Ooh)  
Seein' whatever we choose  
(Ooh)  
Hear only voices that call your name  
And it's alright now  
We're on our way Lay me down in the moonlight  
So close to you  
(So close to you)  
Maybe we're just dreamers  
Some dreams come true  
When we're together  
There's nothing we can't do  
(Nothing we can't do)  
Maybe we're just dreamers  
Some dreams come true Lay me down in the moonlight  
So close to you  
(So close to you)

Maybe we're just dreamers  
Some dreams come true  
When we're together  
There's nothing we can't do  
(Nothing we can't do)  
Maybe we're just dreamers  
Some dreams come true ooh
