

Following The Way That I Feel

Ozark Mountain Daredevils

Lately I've felt a little crazy
Like I do when that moon's gettin' full
Is there a change in the air or the way that I care
How can I explain how I feelWish I knew me better
And I would if I half-triedBut my will is strong and it just carries me on
Following the way that I feel
No my love ain't dead it just got to my head
And I need a little space to feel freeLately, I've gone a lot of places
And seen a lot of things I didn't need to see
Maybe I followed a star a little bit too far
And lost something along the wayOr maybe I needed to lose
Something I shouldn't have hadBut it feels so good to take a second look
Following the way that I feel
No my love ain't dead it just got to my head
And I need a little space to feel freeI feel loose and contented
Like to go where I want, when I can
If I set too much, my thoughts begin to rush
And nothin' is clear that I hearI guess I'm a mover
Just travelin' through my life to somewhereBut it feels so good to take a second look
Following the way that I feel
No my love ain't dead it just got to my head
And I need a little space to feel freeWhile following the way that I feel
While I'm following
Following the way that I feel
While I'm following
Following the way that I feel
