

# Empty Vision

## Fear Factory

A paralyzed mind embracing decay  
Dead like carrion just wasting away  
There is nothing  
Numbed by excess and complete saturation  
Scarred influence by degeneration  
There is nothing, there is nothing to believe  
All has been lost  
All have lost their way  
Every eye has been disgraced  
Dead like carrion  
We must carry on  
There is nothing  
Lost innocence and blank revelations  
Searching for a hope in static transmissions  
There is nothing, there is nothing to believe  
All has been lost  
All have lost their way  
Every eye has been disgraced  
There is no reason for empty vision  
All has been lost  
All have lost their way  
All has been lost  
All have lost their way  
Every eye has been disgraced  
There's no reason for empty vision
