Book of Liars

Walter Becker

Bye and bye now
We'll get over
The things we've done and the things we said
But not just now when
I can't remember
Exactly what it was I thought we had
'Cause I waited so long girl and I came so far
To find out you're not always who you say you areAnd there's a star in the book of liars by your nameSanta Claus came in late last night
Drunk on Christmas wine
Fell down hard in the driveway
Hung his bag out on the laundry line
There's a Cobra Gunship for his golden boy
And there's a Hello Kitty for his pride and joyAnd a silver star in the book of liars by your name
They hung a star in the book of liars by your nameStars imploding
The long night passing
Electrons dancing in the frozen crystal dawn
Here's one left stranded at the zero crossing
With a hole in it's half-life left to carry on
But now the world's much larger than it looks today
And if my bad luck ever blows me back this wayThen I'll just look in my book of liars for your name
I'll just look in the book of liars for your name
