

Courtyard

Whitaker Trebella

Oh, my girl
You're still in the middle
But only the middle For once, my dear
You miss by a little
But only a little I don't know which way to stand Ooh, Ooh, Ooh
Ooh, Ooh, Oohoh it's clear just look out a window
but only the window
i don't know how long to stay here, something's waking up
and i won't drive what you used to love yeah the old days i think they're coming back
but i don't mind
ooh, ooh
saw you in a park
of a courtyard and i love you, but i'd never tell you that
