

# Cyndi Lauper Said No

## James Collins

(Pix Mix Edit) I decided to soak up some sun on an "R Family Cruise"

There were gays and straights and bi's

And a couple confused Well to my surprise Miss "She Bop" was headlining in the Stardust Room

Hey, the girl's still got it

She belted out a bunch of my favourite tunes I ran into her after

Had to get a picture

You know I'm not a stalker

I just dig Cyndi Lauper

But when I tried to ask her

"Could I get a picture?"

"Loved your show!" Cyndi Lauper said "No!" (5x) How could she be so cold?

Let her "True Colours" show I was a little upset, you know

I've never been dissed by a celebrity

Why would she want to be rude?

How could she act so cruel to a fan like me? I wanted just a few seconds and a smile...

Hey Cyndi, how hard can that be!? Why did I even bother?

It's not like she's Madonna

I like Cyndi Lauper

But I'd never stalk her

Just wanted a picture

Hey, we're on a boat!

Where did she have to go? Cyndi Lauper said No

Cyndi Lauper said No

The "She Bopper" said "No!"

Cyndi Lauper said "No!" (5x) Wanna throw out your CDs

Just to show how much you hurt me

My radio will get its channel changed

if it starts playing one of your songs

I hope that I get my message through

So all your fans will get the best of you

Think twice about the things you do

Cause it was wrong when Cyndi said "No!" Why did I even bother?

It's not like she's Madonna

Cyndi Lauper said...

No...No... No...

Cyndi Lauper said No (5x) How could she be so cold?

Let her "True Colours" show

"She's So Unusual"

How could she hurt me so?
