

Night On the Sun

Modest Mouse

So, turn off the light
'Cause it's night on the sun
You're hopelessly hopeless
I hope so, for you Freeze your blood
And then stab it into in two
Stab your blood into me
And blend I eat my own blood
And get filled up get filled up
I get filled up on me
And end So, turn off the light
'Cause it's night on the sun
You're hopelessly hopeless
I hope so, for you Turn off the light
'Cause it's night on the sun
You're hopelessly hopeless
I hope so, for you Freeze your blood
And then stab it into in two
Stab your blood into me
And end I eat my own blood
And get filled up, I get filled up
I get filled up on me
And end Freeze your blood
And then stab it into me
Freeze your blood
And then stab it into me
Freeze your blood
And then stab it in two into me
And blend Turn off the light
'Cause it's night on the sun
You're hopelessly hopeless
I hope so, for you Well, there's one thing
To know about this town
It's five hundred miles underground
And that's alright, that's alright Well, there's one thing
To know about this globe
It's bound and it's willing to explode
And that's alright, that's alright
That's alright, that's alright Well, there's one thing
To know about this town

Not a person doesn't
Want me underground
That's alright, that's alright
That's alright There's one thing
To know about this town
It's five hundred miles underground
And that's okay
That's alright, that's alright There's one thing
To know about this earth
We're put here just to make more dirt
And that's okay
That's alright, that's alright Well, there's one thing
To know about this globe
It's bound and it's willing to explode
And that's okay
That's alright, that's alright There's one thing
To know about this town
It's five hundred miles underground
And that's okay
That's alright, that's alright
