Look Away

Shelter

I see a trail, a grudging light
It's burning bright, it takes me home again
And I can't understand the plan
I try to fight, but I cannot contendA magnetic force, it's a true north
Where is it's source, must be a friend
But what I have begun
To feel that I will easily transcendJust look away, just walk away
Just look away nowNo hope is lost I never fear
That I'll be desperate, left out on my own
I feel it, but soon realized
The whole time I never was aloneBusy city, crowded clubs
Or touring in a van away from home
If we can listen we will hear
A voice that will teach and help us growJust look away, just walk away
Just look away, nowI'm feeling down
I'm not alone, not on my ownI don't know what you've been through
But my guess too is life is always rough
It leaves us bruised and bloodied
It makes us hard It makes our skin real toughWhen my world crumbles on me
As it does each week, it is not the end
I look inside, I listen too
'Cuz I'm sure there's an ally withinJust look away, just walk away
Just look away
