

She's Music to Me

Ekolu

Baby, when I look through our life all I see
Is blessings unfolding
Oh it's amazing
How everything works out so right
Our love is never ending
Oh, then in a moment it seems
I could be lost without you
Oh, and every song I sing
Wouldn't be made without you it's true

She's music to me
She's all that I want
Life's been a blessing since she came along
She's music to me, like a beat of a song
God knows that I've been waiting for so long
She's music to me, yeah yeah
She's music to me, yeah yeah oh

Sometimes I think of the moments we've shared
And how they passed so quickly
Life could never bring me the joy that I need
If you were here beside me

Oh girl you should know by now
I would be lost without you
Yes and every song that I sing
Is that I catered to you it's true

She's music to me
She's all that I want
Life's been a blessing since she came along
She's music to me, like a beat of a song
God knows that I've been waiting for so long
She's music to me, yeah yeah
She's music to me, yeah yeah oh

Girl you should know by now
I would be lost without you
Yes and every song that I sing

Is that I catered to you, it's true

She's music to me

She's all that I want

Life's been a blessing since she came along

She's music to me, like a beat of a song

God knows that I've been waiting for so long

She's music to me, yeah yeah

She's music to me, yeah yeah

She's music to me

Every time I look in her eyes

Music to me

Every time she's here by my side

She's music to me

Every time I look in her eyes
