

# One World

Tobymac

One time  
One world  
Two times  
One love  
Three times  
Rewind

'Cause I'm a dedicate this song to everyone of God's children

Come as you are

Come just like you be

It's the bumps and curves of our history

But no blocks in the road that we can't traverse

And no wounds from the past that can't be nursed

All hate gonna dissipate from our fate

No check, together we got a checkmate

All hate gonna dissipate and fade away

To make room for a brand new day

We got one world 'til its time to fly

We got so it's one love 'til we say goodbye

We got one world its enough to share

Til we're called home and we're caught up in the air we got

One world

I'll look out for you, you look out for me

One world

Together we can be perfect harmony

One world

I'll look out for you, you look out for me

One world

And I'm a dedicate this song to everyone of God's children

One world oughta be more than enough

And if its not, is God looking in pure disgust?

Wondering what the dilly with the silly I see?

When I made each of these in the image of me

Everyday is a chance for a new stance

Like every song is the beginning of a new dance

And everyone of us was made to reflect the light

And glorify the most high so bright

We got one world 'til its time to fly

So it's one love 'til we say goodbye

We got one world its enough to share  
Til the king calls us home and we're caught up in the air we got  
One world  
I'll look out for you, you look out for me  
One world  
Together we can be perfect harmony  
One world  
I'll look out for you, you look out for me  
One world  
And I'm a dedicate this song to everyone of God's children  
You can come as you are  
Love is yours  
Love is ours  
I am a witness  
sweet forgiveness  
You will shine like a star  
Burning bright where you are in our one world, one world  
Like a star, like a star, like a star  
One World  
Like a star, Baby  
One World  
And I'm gonna dedicate this song, dedicate this song  
One world  
I'll look out for you, you look out for me  
One world  
Together we can be perfect harmony  
One world  
I'll look out for you, you look out for me  
One world  
And I'm gonna dedicate this song, dedicate this song  
Lets come together and love,  
Lets come together and love,  
Lets come together and love,  
Lets come together and love, come together
