Neon

The Knife

Something's gotten all over my head
And it won't leave me alone
Yeah, and when you come onSomething's gotten all over my head
And it won't let me go
Yeah, and when you come onSomething's got a hole in my head
And I didn't know
Yeah, and when you come onSomething's got a hole in my head
And I didn't know
Yeah, and when you come on
(And you)
Come onIt brings a new type of grace
And it keep coming back for more
And it leaves me with a shimmering face
And it keep coming back for moreAnd it brings a new type of grace
And it keep coming back for more
And it leaves me with a shimmering face
And it keep coming back for moreNeon, when you come and go
Neon, when you come and go
Neon, when you come and goNeon, when you come and go
Neon, when you come and go
Neon, when you come and go(Neon)
And it brings a new type of grace
And it keep coming back for more(Neon)
And it leaves me with a shimmering face
And it keep coming back for more
