

# Complicated

Kip Moore

Girl, I know I drive you mad  
And I know I make you cry  
And I wish I knew the reason  
But I don't know why  
And you know all the things to do  
To get under my skin when you want to  
Girl, here we are, yeah we made it this far  
With both hands on the wheel of a getaway car  
Roll the window down, baby, wave goodbye  
To your mama standin' there in the drive  
From the day we met we were goin' too fast  
We were born to run, we were built to last  
All I know is sometimes you love it, sometimes you hate it  
But what good's love if it ain't a little complicated?  
No, it don't always go just like you hoped it would  
But sometimes complicated's pretty damn good  
Girl, you made your choice and you had your pick  
Of a little bit smoother ride than this  
Coulda played it safe, coulda got out clean  
But you rolled the dice and you're stuck with me  
Roll the window down, baby, wave goodbye  
To your mama standin' there in the drive  
From the day we met we were goin' too fast  
We were born to run, we were built to last  
All I know is sometimes you love it, sometimes you hate it  
But what good's love if it ain't a little complicated?  
No, it don't always go just like you hoped it would  
But sometimes complicated's pretty damn good  
Not much in the bank account  
Just enough to get us by  
So I'm scared as hell  
The way you're smilin' at me  
With those two pink lines  
And all I know is sometimes you love it and you hate it  
But what good's love if it ain't a little complicated?  
Now, all I know is sometimes you love it, sometimes you hate it  
But what good's love if it ain't a little complicated?  
No, it don't always go just like you hoped it would  
But sometimes complicated's pretty damn good  
Pretty damn good  
Yeah  
But sometimes, complicated's pretty damn good
