

I Will Never Wait

With Confidence

Button up your shirt and tie your laces,
We're going out it's time to get wasted
I've had it up to here with this week so I'm breaking all your rules.
We built up a messy foundation,
You looked shocked when it's all shaking,
I built it up to feel a complete but I never got to choose So don't you leave,
Cause I won't follow you,
Give up tonight Don't ever try
Don't ever fight,
Don't ever, cause I will never wait,
No I will never wait Let go of all motivation,
It's my time you think about wasting,
I've had it up to here with this week so I'm breaking all your rules
Every bridge we built, I'm gonna break them,
Every night you took, I'm gonna claim them,
I built it up to feel a complete but I never got to choose So don't you leave,
Cause I won't follow you,
Give up tonight Don't ever try
Don't ever fight,
Don't ever, cause I will never wait,
No I will never wait And I saw you shy,
With your big blue eyes,
And I thought this was our moment.
So I saw it out,
But I broke you down
Cos i fought for what was golden
