

Let Me Fall

[Nora Jane Struthers](#)

Stay up all night a'waitin for the sun to peek its head
Just behind that mountain top
And if I get tired I'll lay right down here in the needle bed
And if I fall boy let me fallThe dew has fallen; it sparkles like diamonds on the fields below
The summer sun sweeps the perfume of blossoms and every breath's a roseStay up all night a'waitin for the sun
to peek its head
Just behind that mountain top
And if I get tired I'll lay right down here in the needle bed
And if I fall boy let me fallI hope you kiss me; my lips have been whispering for your touch all night
My heart's a flutter and I start to stutter as your eyes meet mineStay up all night a'waitin for the sun to peek its
head
Just behind that mountain top
And if I get tired I'll lay right down here in the needle bed
And if I fall boy let me fallI know a path that leads all the way up
I think we'll make it if we don't stop
No, no don't stop; don't stopStay up all night a'waitin for the sun to peek its head
Just behind that mountain top
And if I get tired I'll lay right down here in the needle bed
And if I fall boy let me fall
