The Way You Love Me

Keepsake

I tried to find You but I didn't know Your name
I searched for love, but I found only pain
I chased the truth, but I only caught the lies
When I searched for beauty, dirt got in my eyes
And then Your love showed up
And it erased my pain
Lord, You gave it all just to clear my name
Why You love me I cannot understand
How You love me, can't even comprehend
That You want me as broken as I am
I can never repay the way You love me
The closer that I get to You the smaller this world seems
Deep inside my heart You placed eternity
You gave me room to breathe, a place to get away
Standing in Your presence with a debt I can't repay
