

Never Ending Hill

King Diamond

Time is never ever standing still
Except on Never Ending Hill
From here you can see Devil Lake, Devil Lake
The velvet sunset is never too late Never Ending Hill is where I live
The old oak tree is standing still
Can you hear the birds singing in the trees? In the trees
Can you hear the wind shaking all the leaves? Whoa, take a look at the sky
Golden clouds are moving right by my eyes
Black cat magic is down by the lake
Chasing butterflies that can't get away Now the sun is slowly going down
I can hear Devil Lake is quiet now
Magic, magic, come home
Say goodbye to your butterfly
'Cause nighttime is coming our way Time is never ever standing still
Except on Never Ending Hill
From here you can see Devil Lake, Devil Lake
The velvet sunset is never too late Whoa, take a look at the sky
Golden clouds are moving right by my eyes
Black cat magic is down by the lake
Chasing butterflies that can't get away Darkness comes in, sun is drowning
Drowning in Devil Lake
Magic, come in, light is fading
Ooh yeah, it's getting late Take a look at the sky
Golden clouds are moving right by my eyes
Black cat magic is down by the lake
Chasing butterflies that can't get away
