

Body Language

Jesse McCartney

Nappy Boy, Pretty Boy collaboration
That thing you got behind you is amaaazing
Ooo, that body's like music to my ear
Ooo, that body's like music to my ear
Ooo, that body's like music to my ear
'Cause what you want is right here Oh she, oh she so international
The way, the way she get it on the floor
I'm tryin', I'm tryin' to holler at you
I want to get to know you better Parlez vous francais?
Konichiwa
Come and move in my way
Hey, little chica from Guadalupe
That thing you got behind you is amazing Now, I don't speak Spanish, Japanese or French
But the way that body's talkin' definitely makes sense
It's her, her body, her body, her body language
It's her, her body, her body, her body language
The way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language
It's her, her body, her body, her body That make me want to say hey...('ey!)
Hey...('ey!)
Hey...('ey!)
Girl you're speaking my body, body, body, body language
C'mon Shawty, let me whisper in your ear
Tell you everything you wanna hear
You got my vote: Hottest Girl of the Year
Let's have a celebration, baby Parlez vous francais?
Konichiwa
Come and move in my way
Hey, little chica from Guadalupe
That thing you got behind you is amazing Now, I don't speak Spanish, Japanese or French
But the way that body's talkin' definitely makes sense
It's her, her body, her body, her body language
It's her, her body, her body, her body language
The way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language

It's her, her body, her body, her body That make me want to say hey...('ey!)

Hey...('ey!)

Hey...('ey!)

It's her, her body, her body, her body language

C'mon I'm lifting up my voice to say

You're the hottest girl in the world today

The way you shake

You got me losing my mind

You're banging like a speakerbox

Turn around; the party stops

Universal lady, let me take you away Now, I don't speak Spanish, Japanese or French

But the way that body's talkin' definitely makes sense now

It's her, her body, her body, her body language

It's her, her body, her body, her body language

It's the way she moves around

When she grinds to the beat

Breaking it down articulately

It's her, her body, her body, her body language

It's her, her body, her body, her body You make me want to say hey...('ey!)

Hey...('ey!)

Hey...('ey!)

It's her, her body, body, body language

C'mon Ooo, that body's like music to my ear

Ooo, that body's like music to my ear

Ooo, that body's like music to my ear

'Cause what you want is right here
