

# Uncanny

## Nervosas

Airports to Amsterdam  
There's nothing that we can do now  
I'm convinced, oh, that you're right  
    You're right where you belong  
Beside me, to remind meDid you ever think this far behind me  
    You would see the world for what it was  
        And who we really were  
Oh, they love us, American boysAnywhere, say anywhere  
    As long as I'm with you  
        Anything, ask anything  
We'll watch the world go byAnywhere, say anywhere  
    As long as I'm with you  
        Anything, ask anything  
We'll watch the worldTrains to Tokyo, staring out windows  
    A place we've never been  
        While soundtracks play in backgrounds  
To the stories of our livesNon-fiction, oh envision  
    If we never met and what we missed  
        And never really learned, Pacific Standard Time  
Oh, they love those American boysAnywhere, say anywhere  
    As long as I'm with you  
        Anything, ask anything  
We'll watch the world go byAnywhere, say anywhere  
    As long as I'm with you  
        Anything, ask anything  
We'll watch the worldAnywhere, say anywhere  
    As long as I'm with you  
        Anything, ask anything  
We'll watch the world go byAnywhere, say anywhere  
    As long as I'm with you  
        Anything, ask anything  
We'll watch the world go byAnywhere, say anywhere  
    As long as I'm with you  
        Anything, ask anything  
We'll watch the worldAnywhere, say anywhere  
    As long as I'm with you  
        Anything, ask anything  
We'll watch the world go byAnywhere, say anywhere  
    As long as I'm with you

Anything, ask anything  
We'll watch the world
