## Brooksite

there is no color here  
I'll wait one more minute for you  
I suppose I might leave cause I can see  
cause I can see him  
I see my killer  
my shadow has disapeared  
so has my ghost  
I'm still waiting  
I'll get you before you get me  
so many people aren't here  
but I know I was meant for you  
you'll get me before I get you so I see
