

Brown Hand Smash

South Border

(Stand proud / shout loud) [?] don't stop just do the dance

We can make a difference

We're comin' out in the open y'all

F-i-l-i-p-i-n-o [repeat]

Let me tell you 'bout a race

That was taken for granted

We were mocked, bruised, abused, and fuckin' branded

Like my hommie jay-d who got incarcerated

That was foul son but he ain't the only one

Who lived in a world of pain, world of shame,

World of blame, we were livin in a world of games

Were you had to be strong, survival of the fittest

Where the poor didn't belong but the richest

Now we gotta change that, we got a plan

We gotta do our thing, man, the best that we can

No time for bullshit, no time for games

South border is here in opm's name.

Who said filipinos can't do this, what?

Who said filipinos can't do that, damn!

C'mon y'all let's show them what we got

Pinoys, stand up and stand proud

[repeat chorus]

Hold up, hold up, i got a silence comin' on

But that won't last for very long

'cause we won't stop, and we won't quit

South border's been around for 10 years

And still kickin' it.

I feel the air blowing, winds of change

Our band has been twice, re-arranged

Twice the pain, twice the shame, twice the blame

We never lost faith coz we're still the same

Now we're back and we're stronger,

Learned a lot of lessons from our two past brothers,

Now we got new players duncan and vince,

I don't call this coincidence.

It's not all about the fame,

It's how you play the game.

There'll be times when the going gets tough,
But south border will remain as solid as a rock.

[bridge:]

(we're comin' straight at 'cha from the jd factory)

We are comin' straight right at 'cha now

(what you make me feel everything is oh so real)

(we can make it happen no doubt)

We are comin' straight right at 'cha now

(can you feel it baby, can you feel it [x2])

We are comin' straight right at 'cha now

(don't ever hold back, just let it flow)

(baby what you make me feel everything is oh so real)

We are comin' straight right at 'cha now

(so this is our shout out to all our brown skin brothers)

We said it once and we'll say it again,

South border is here in opm's name.

[repeat chorus x2]
