

Dance Dance

Great Big Sea

Friday night, seventeen
Got my hands on the wheel
But my mind is on Jeen
Her silhouette I cant forget
But Im gonna ask her yetMy brother's truck, my Sunday slacks
Ive been working all week
And Ive got five bucks for gas
And for luck, my grandfather's flask
Its gonna take some nerve to askWhy won't you dance, dance with me
One more time, one more time?
Dance, dance with me one more time
Before the band is done, before your daddy comes
Dance, dance with me one more timeShes the apple of his eye
And theres no way in hell
Hell let her out of his sight
There'll be trouble, maybe a fight
If he knew what I had in mindWhy won't you dance, dance with me
One more time, one more time?
Dance, dance with me one more time
Before the band is done, before your daddy comes
Dance, dance with me one more time
Oh, one more time, dance, dance, danceI see it now, as plain as day
A church and a chaplain on our wedding day
Dressed in white, she looks so fine
You never know, she just might
Im gonna have to ask her tonightDance, dance with me, one more time, one more time
Dance, dance with me one more time
Before the band is done, before your daddy comes
Dance, dance with me one more timeOh, dance, dance with me, one more time, one more time
Dance, dance with me one more time
Before the band is done, before your daddy comes
Dance, dance with me one more time, one more time
