Fingernail Moon

My Little Life

Fingernail moon up in the sky
Come out and see me, see me sometimes
'Cause I'm here alone, stuck in the blue
No distance between us, between me and you
I've got nothing to hide, I've got nothing to loose
You'll be by my side, come on tell me the truth
Elegant blue, you cut like a knife
It does me no favors, stay out of my site
Splendid like glass, all ancient and new
Space less between us, between me and you
There's no need to be shy, there's no need to be scared
I need you tonight, come on out if you dare
I'm just a girl with my feet on the ground

I'm just a girl with my head going round
I feel so sad
Something unsettling out of my skin
I don't know the reason or where to begin
Calling the circles I found myself in
But I want to reach out and touch you, my sweet
Circle, you up in the sky
Come out and see me, see me some times
'Cause I'm here alone after all I've been through
Where the distance between us, between me and you
It don't matter how long, it don't matter how far
I'll need you tonight under the stars
